

Dear Vincent: Here are some suggestions from the Editor that may prove useful in your writing:

"I suggest two things. First, consider packaging the ms. as a concise Viewpoint article with just the necessary citations in the bibliography. No experimental aspects or Supporting Info. Second, perhaps your other authors could assist under the adverse circumstances to flesh out the remainder of this highly desirable contribution and make the extended deadline."

**Subject:** Manuscript preparation

Hi, Vincent. Sheila tells me that you're working on the manuscript. Thank heavens the second version was so much better than the first!

I hate to add time pressure, but at least you should know what we're up against. The original deadline was Jan. 1; got that extended to Jan. 15. The Editor has done me a favor and extended to Jan. 31. Last week I told him I'd have it to him by Monday. That may be unreasonable, and I understand if it is. But I must get it to him by Wed. at the latest.

Thank you for your work on this. I'll make sure it's rewarded.

Tony
